

STATE BANK OF INDIA - PROBATIONARY OFFICER (PRELIMS) PRACTICE TEST 3 (100 QUESTIONS | 100 MARKS | 60 MINUTES)

SECTION I: ENGLISH LANGUAGE (Q1 – Q30)

Directions (Q1–Q8): Read the passage below and answer the questions that follow.

The rapid maturation of quantum computing architectures poses an existential cryptographic threat to modern digital infrastructure. Traditional public-key cryptography—such as RSA and elliptic-curve algorithms—relies on the computational hardness of mathematical problems like integer factorization, which classical computers find prohibitively difficult to solve. However, quantum algorithms, notably Shor's algorithm, can efficiently decode these encrypted protocols in polynomial time, rendering legacy security frameworks obsolete. In response, global cybersecurity agencies are accelerating the standardization of post-quantum cryptography (PQC), focusing on lattice-based and hash-based mathematical models that resist quantum decryption. While migration to PQC ensures long-term data confidentiality, the massive upgrade cycle requires unprecedented coordination across financial systems, cloud providers, and sovereign defense networks.

Q1. What primary threat does the maturation of quantum computing pose according to the passage?

- A) Physical destruction of data center hardware
- B) An existential cryptographic threat to traditional public-key cryptography
- C) Permanent collapse of global internet connectivity
- D) Excessive energy consumption in server farms
- E) Elimination of cloud computing providers

Q2. Which classical cryptographic algorithms are specifically cited as vulnerable to quantum computers?

- A) Symmetric AES-256 and SHA-3
- B) RSA and elliptic-curve algorithms
- C) Lattice-based and hash-based models
- D) Symmetric DES and Caesar ciphers
- E) One-time pad encryption

Q3. Select the word most **SIMILAR** in meaning to "**prohibitively**" as used in the passage.

- A) Affordably
- B) Excessively
- C) Minimally
- D) Moderately
- E) Easily

Q4. Select the word most **OPPOSITE** in meaning to "**obsolete**" as used in the passage.

- A) Outdated
- B) Antiquated
- C) Current
- D) Superseded
- E) Archaic

Q5. What mathematical models are cybersecurity agencies prioritizing for post-quantum cryptography?

- A) Integer factorization and prime division
- B) Lattice-based and hash-based models
- C) Linear regression and matrix multiplication
- D) Random number generation without protocols
- E) Symmetric DES encryption formulas

Q6. The author's tone regarding the migration to post-quantum cryptography can best be described as:

- A) Dismissive and unconcerned
- B) Analytical and urgent, highlighting both the threat and the necessary migration effort
- C) Overly optimistic without acknowledging operational hurdles
- D) Pessimistic about the future of digital technology
- E) Neutral and detached from security concerns

Q7. Which statement is **TRUE** according to the passage?

- A) Shor's algorithm can efficiently decode legacy public-key protocols in polynomial time.
- B) Classical computers can easily execute Shor's algorithm.
- C) Financial systems are exempt from upgrading to post-quantum standards.
- D) Lattice-based cryptography is vulnerable to traditional integer factorization.
- E) Post-quantum cryptography has already been universally deployed without issue.

Q8. What is the main idea of the passage?

- A) The history of mechanical encryption devices during wartime.
- B) The cryptographic vulnerability introduced by quantum computers and the urgent transition to post-quantum security frameworks.
- C) Financial investment strategies for quantum hardware manufacturers.
- D) Detailed mathematical proofs of elliptic-curve encryption.
- E) The operational mechanics of cloud-based server hosting.

Directions (Q9–Q13): Identify the grammatically incorrect part in each sentence.

Q9.

(A) Neither the chief executive / (B) nor the regional directors / (C) was present / (D) during the annual strategy summit. / (E) No error

- A) A
- B) B
- C) C
- D) D
- E) E

Q10.

(A) Each of the venture capital firms / (B) have invested heavily in artificial intelligence startups /

(C) over the past financial quarter. / (D) Over the past financial quarter. / (E) No error

A) A

B) B

C) C

D) D

E) E

Q11.

(A) Had the engineering division / (B) tested the firmware update earlier, / (C) they would prevent / (D) the system crash. / (E) No error

A) A

B) B

C) C

D) D

E) E

Q12.

(A) Barely had the startup secured / (B) its series funding round / (C) when market sentiment / (D) shifted unfavorably. / (E) No error

A) A

B) B

C) C

D) D

E) E

Q13.

(A) The committee discussed about implementing / (B) rigorous risk management protocols / (C) across all retail lending portfolios. / (D) Across all retail lending portfolios. / (E) No error

A) A

B) B

C) C

D) D

E) E

Directions (Q14–Q18): Fill in the blanks with the most appropriate word pair.

Q14. The regulatory authority decided to _____ compliance standards to _____ fraudulent financial practices.

A) relax, encourage

B) tighten, curb

C) maintain, amplify

D) lower, accelerate

E) remove, permit

Q15. Despite experiencing _____ operational challenges, the manufacturing unit achieved _____ quarterly production milestones.

A) severe, remarkable

B) negligible, poor

C) favorable, dismal

D) mild, catastrophic

E) minor, negative

Q16. The internal review identified several _____ in the inventory logs, triggering a comprehensive _____ investigation.

A) anomalies, detailed

B) alignments, superficial

C) accuracies, brief

D) harmonies, casual

E) consistencies, nominal

Q17. Scalable cloud infrastructure is _____ for modern enterprises seeking to remain _____ in digital marketplaces.

A) optional, obsolete

B) imperative, competitive

C) superfluous, dormant

D) redundant, dominant

E) hazardous, inactive

Q18. The founder's _____ speech successfully calmed investor anxieties, effectively _____ panic across the firm.

A) aggressive, heightening

B) reassuring, pacifying

C) erratic, compounding

D) vague, aggravating

E) provocative, inciting

Directions (Q19–Q23): Rearrange the following six sentences (A, B, C, D, E, F) into a coherent paragraph.

- (A) Consequently, supply chain bottlenecks disrupted raw material deliveries.
- (B) Rising geopolitical tensions constrained international trade flows.
- (C) To mitigate these logistical disruptions, firms diversified their supplier bases.
- (D) This restriction on raw material availability slowed down industrial production.
- (E) Recent trade reports indicate that global supply chains are stabilizing.
- (F) This strategic realignment successfully restored inventory stability across sectors.

Q19. Which of the following should be the **FIRST** sentence after rearrangement?

A) A B) B C) C D) D E) E

Q20. Which of the following should be the **SECOND** sentence?

A) B B) D C) A D) C E) F

Q21. Which of the following should be the **THIRD** sentence?

A) A B) C C) D D) E E) F

Q22. Which of the following should be the **FIFTH** sentence?

A) B B) C C) D D) F E) E

Q23. Which of the following should be the **SIXTH (LAST)** sentence?

A) A B) B C) C D) D E) E

Directions (Q24–Q27): Replace the phrase in bold to make the sentence

grammatically correct.

Q24. The protocol dictates that **every technician must submit their logs** before shift change.

- A) every technician submits his or her logs
- B) every technician must submit his or her logs
- C) all technicians must submits logs
- D) every technicians submit logs
- E) No correction required

Q25. Neither the lead architect nor the engineers was present for the system audit.

- A) Neither the lead architect nor the engineers were
- B) Not only the lead architect but engineers was
- C) Neither architect nor engineers is
- D) Neither the engineers nor the architect were
- E) No correction required

Q26. The enterprise expanded **so aggressively fast that it dominated** the regional market.

- A) so remarkably fast that it dominated
- B) such fast that it dominated
- C) as fast so as to dominate
- D) so rapid fast that it dominating
- E) No correction required

Q27. The organization partnered with universities **with a view to fostering** technical innovation.

- A) with a view to foster
- B) with a view of foster
- C) in view to fostering
- D) with a view for fostering
- E) No correction required

Directions (Q28–Q30): In each question, a word is given in bold followed by three sentences using the word. Choose the option indicating the sentences where the word is used correctly.

Q28. EXPEDITE

- I. Implementing automated workflows helps expedite loan approval processes.
- II. Her expedite presentation won top honors.
- III. Upgrading server infrastructure will expedite data processing speeds.

- A) Only I
- B) Only I and III
- C) Only II and III
- D) All I, II, and III
- E) Only III

Q29. STABILIZE

- I. Introducing price controls helped stabilize local commodity markets.
- II. Her blood pressure began to stabilize following medication.
- III. They managed to stabilize the contract smoothly without disputes.

- A) Only I and II

- B) Only II and III
- C) Only I
- D) All I, II, and III
- E) Only III

Q30. STRATEGIC

- I. The executive team adopted a strategic approach to market expansion.
- II. Engineers must formulate strategic solutions for complex hardware faults.
- III. His abstract theory was entirely strategic, confusing the review panel.

- A) Only I
- B) Only I and II
- C) Only II and III
- D) All I, II, and III
- E) Only III

SECTION II: QUANTITATIVE APTITUDE (Q31 – Q65)

Directions (Q31–Q35): Find the missing number in the following series.

Q31. 4, 9, 19, 39, 79, ?

- A) 149
- B) 159
- C) 169
- D) 139
- E) 175

Q32. 12, 16, 25, 41, 66, ?

- A) 100
- B) 102
- C) 105
- D) 98
- E) 110

Q33. 200, 192, 174, 140, 84, ?

- A) 0
- B) 2
- C) -4
- D) 5
- E) -10

Q34. 3, 4, 10, 33, 136, ?

- A) 680
- B) 685
- C) 690
- D) 695
- E) 700

Q35. 320, 160, 160, 240, 480, ?

- A) 1100
- B) 1150

- C) 1200
- D) 1250
- E) 1300

Directions (Q36–Q40): Solve the quadratic equations and establish the relationship between x and y .

Q36.

Equation I: $x^2 - 11x + 30 = 0$

Equation II: $y^2 - 15y + 56 = 0$

- A) $x > y$
- B) $x < y$
- C) $x \geq y$
- D) $x \leq y$
- E) $x = y$ or relationship cannot be established

Q37.

Equation I: $2x^2 + 7x + 6 = 0$

Equation II: $2y^2 + 11y + 15 = 0$

- A) $x > y$
- B) $x < y$
- C) $x \geq y$
- D) $x \leq y$
- E) $x = y$ or relationship cannot be established

Q38.

Equation I: $x^2 - 256 = 0$

Equation II: $y^2 - 28y + 196 = 0$

- A) $x > y$
- B) $x < y$
- C) $x \geq y$
- D) $x \leq y$
- E) $x = y$ or relationship cannot be established

Q39.

Equation I: $3x^2 + 11x + 10 = 0$

Equation II: $y^2 - 8y - 20 = 0$

- A) $x > y$
- B) $x < y$
- C) $x \geq y$
- D) $x \leq y$
- E) $x = y$ or relationship cannot be established

Q40.

Equation I: $x^2 - 12x + 35 = 0$

Equation II: $y^2 - 10y + 24 = 0$

- A) $x > y$
 B) $x < y$
 C) $x \geq y$
 D) $x \leq y$
 E) $x = y$ or relationship cannot be established

Directions (Q41–Q45): What approximate value should come in place of question mark (?)?

Q41. $(15.98)^2 + (7.02)^3 - \sqrt{529.12} = ?$

- A) 570
 B) 584
 C) 595
 D) 560
 E) 610

Q42. $500.05 \div 9.98 \times 15.89 + 199.92 = ?$

- A) 995
 B) 1000
 C) 980
 D) 1025
 E) 960

Q43. $45.98\% \text{ of } 500.12 + 54.91\% \text{ of } 300.05 = ?$

- A) 390
 B) 394
 C) 380
 D) 410
 E) 375

Q44. $\sqrt{2025.09} \div 5.02 \times 14.04 = ?$

- A) 120
 B) 126
 C) 130
 D) 115
 E) 135

Q45. $110.95 \times 6.02 + 450.91 \div 8.98 = ?$

- A) 715
 B) 700
 C) 725
 D) 690
 E) 740

Directions (Q46–Q50): Study the table showing monthly investment and profit distribution across 5 businesses (M, N, O, P, Q) and answer the questions.

Business	Investment Ratio (X : Y)	Total Profit (₹)	Period Ratio (X : Y)
----------	-----------------------------	------------------	-------------------------

M	2 : 3	60,000	3 : 2
N	3 : 4	70,000	2 : 3
O	4 : 5	99,000	5 : 4
P	3 : 2	80,000	2 : 3
Q	5 : 6	1,32,000	6 : 5

Q46. What is X's share of profit in Business O?

- A) ₹50,000
- B) ₹55,000
- C) ₹60,000
- D) ₹45,000
- E) ₹65,000

Q47. In Business M, what is the ratio of X's profit share to Y's profit share?

- A) 1 : 1
- B) 2 : 3
- C) 3 : 2
- D) 4 : 5
- E) 5 : 4

Q48. What is Y's total share of profit in Business N?

- A) ₹35,000
- B) ₹40,000
- C) ₹42,000
- D) ₹45,000
- E) ₹48,000

Q49. In Business Q, by how much does X's profit share exceed or fall short of Y's profit share?

- A) Exceeds by ₹12,000
- B) Falls short by ₹12,000
- C) Equal share (₹0 difference)
- D) Exceeds by ₹18,000
- E) Falls short by ₹18,000

Q50. What is the combined total profit share of X across Business M and Business P?

- A) ₹65,000
- B) ₹68,000
- C) ₹70,000
- D) ₹72,000
- E) ₹75,000

Directions (Q51–Q55): Study the pie chart representing percentage distribution of total employees (Total = 6000) across 5 branches.

- Branch A: 15%
- Branch B: 25%
- Branch C: 20%
- Branch D: 30%
- Branch E: 10%

Q51. What is the ratio of employees in Branch A and Branch E combined to employees in Branch C?

- A) 5 : 4
- B) 4 : 5
- C) 3 : 2
- D) 2 : 3
- E) 1 : 1

Q52. If 50% of Branch B employees are certified professionals, how many non-certified employees work in Branch B?

- A) 700
- B) 750
- C) 800
- D) 850
- E) 900

Q53. What is the average number of employees across Branch A, Branch C, and Branch E?

- A) 800
- B) 900
- C) 1000
- D) 1100
- E) 1200

Q54. Employees in Branch D are what percentage more than employees in Branch A?

- A) 50% more
- B) 75% more
- C) 100% more
- D) 120% more
- E) 150% more

Q55. If 150 employees transfer from Branch D to Branch E, what is the new total number of employees in Branch E?

- A) 700
- B) 750
- C) 800
- D) 850
- E) 900

Arithmetic Word Problems (Q56–Q65)

Q56. A sum of ₹30,000 is invested at 10% per annum compound interest for 2 years,

compounded annually. What is the total compound interest earned?

- A) ₹6,000
- B) ₹6,300
- C) ₹6,500
- D) ₹6,800
- E) ₹7,000

Q57. Pipe A can fill an empty tank in 10 hours, and Pipe B can empty the full tank in 15 hours. If both pipes are opened simultaneously, in how many hours will the tank be filled?

- A) 25 hours
- B) 30 hours
- C) 35 hours
- D) 40 hours
- E) 45 hours

Q58. The average age of a group of 15 persons increases by 1 year when a person aged 25 is replaced by a newcomer. What is the age of the newcomer?

- A) 35 years
- B) 38 years
- C) 40 years
- D) 42 years
- E) 45 years

Q59. A train 200 meters long crosses a pole in 8 seconds. What is the speed of the train in km/h?

- A) 72 km/h
- B) 80 km/h
- C) 90 km/h
- D) 95 km/h
- E) 100 km/h

Q60. A shopkeeper marks an article 60% above its cost price and offers a 25% discount on the marked price. What is the net profit percentage?

- A) 15%
- B) 18%
- C) 20%
- D) 22%
- E) 25%

Q61. A, B, and C start a business with capitals in the ratio 2 : 3 : 5. After 6 months, D joins with capital equal to half of B's. At the end of the year, what is the ratio of their profit shares (A : B : C)?

- A) 4 : 6 : 10
- B) 2 : 3 : 5
- C) 4 : 6 : 9
- D) 3 : 5 : 7
- E) 4 : 5 : 8

Q62. In a 100-liter mixture, milk and water are in the ratio 4 : 1. How much water must be added

to make the ratio 3 : 1?

- A) 3.33 liters
- B) 5 liters
- C) 6.67 liters
- D) 8 liters
- E) 10 liters

Q63. A motorboat travels 48 km downstream in 4 hours and 30 km upstream in 5 hours. What is the speed of the current?

- A) 1.0 km/h
- B) 1.5 km/h
- C) 2.0 km/h
- D) 2.5 km/h
- E) 3.0 km/h

Q64. An employee spends 20% of monthly salary on rent, 25% of the remainder on groceries, and saves the rest. If savings equal ₹24,000, what is the monthly salary?

- A) ₹36,000
- B) ₹40,000
- C) ₹42,000
- D) ₹45,000
- E) ₹48,000

Q65. 12 men can complete a task in 10 days, whereas 15 women can complete the same task in 12 days. In how many days can 6 men and 5 women complete the task?

- A) 10 days
- B) 12 days
- C) 15 days
- D) 18 days
- E) 20 days

SECTION III: REASONING ABILITY (Q66 – Q100)

Directions (Q66–Q70): Eight persons (M, N, O, P, Q, R, S, T) sit around a circular table facing the center.

- M sits second to the left of N.
- O sits third to the right of M.
- Only two persons sit between O and P.
- Q sits immediate left of R.
- S is not an immediate neighbor of N.
- T sits second to the left of S.

Q66. Who sits opposite to M?

- A) P B) Q C) R D) S E) T

Q67. Who sits third to the right of O?

- A) N B) M C) Q D) R E) T

Q68. How many persons sit between N and S when counted clockwise from N?

- A) One B) Two C) Three D) Four E) None

Q69. What is Q's position with respect to P?

- A) Second to the left
- B) Immediate right
- C) Third to the right
- D) Second to the right
- E) Immediate left

Q70. Which statement is **TRUE** based on the arrangement?

- A) M and Q are immediate neighbors.
- B) N sits second to the right of T.
- C) P faces R.
- D) O sits immediate left of S.
- E) S sits opposite N.

Directions (Q71–Q75): Eight persons live on an 8-floor building (1 = ground floor, 8 = top floor).

- W lives on an even-numbered floor above floor 4.
- Exactly three persons live between W and X.
- Y lives immediately below X.
- Z lives on an odd-numbered floor above Y.
- Two persons live between Z and A.
- B lives above C, who lives below D.

Q71. Who lives on the 8th floor?

- A) W B) Z C) B D) D E) A

Q72. How many floors are between X and Z?

- A) None B) One C) Two D) Three E) Four

Q73. Who lives immediately above C?

- A) Y B) X C) B D) A E) D

Q74. If all persons are arranged alphabetically from floor 1 to 8, how many remain on their original floors?

- A) None B) One C) Two D) Three E) Four

Q75. Who lives on floor 3?

- A) X B) Y C) Z D) A E) B

Directions (Q76–Q78): In equality statements, evaluate conclusions.

Q76.

Statement: $M \geq N > O = P \leq Q < R$

Conclusions:

I. $M > P$

II. $O < R$

- A) Only I follows
- B) Only II follows
- C) Either I or II follows
- D) Neither I nor II follows
- E) Both I and II follow

Q77.

Statement: $X = Y \leq Z < A \geq B > C$

Conclusions:

I. $X < A$

II. $Z \geq C$

A) Only I follows

B) Only II follows

C) Either I or II follows

D) Neither I nor II follows

E) Both I and II follow

Q78.

Statement: $H > I \geq J = K < L \leq M$

Conclusions:

I. $H > K$

II. $J < M$

A) Only I follows

B) Only II follows

C) Either I or II follows

D) Neither I nor II follows

E) Both I and II follow

Directions (Q79–Q82): Syllogism questions based on "Only a few".

Q79.

Statements:

- Only a few Books are Notebooks.
- All Notebooks are Diaries.
- No Diary is a Folder.

Conclusions:

I. Some Books are Notebooks.

II. No Notebook is a Folder.

A) Only I follows

B) Only II follows

C) Either I or II follows

D) Neither I nor II follows

E) Both I and II follow

Q80.

Statements:

- Only a few Accounts are Ledger.
- All Ledger are Balance.

Conclusions:

I. All Accounts can never be Ledger.

II. Some Balance are Accounts.

A) Only I follows

B) Only II follows

- C) Either I or II follows
- D) Neither I nor II follows
- E) Both I and II follow

Q81.

Statements:

- All Cheques are Drafts.
- Only a few Drafts are Receipts.

Conclusions:

- I. Some Cheques are Receipts.
- II. All Receipts being Drafts is a possibility.

- A) Only I follows
- B) Only II follows
- C) Either I or II follows
- D) Neither I nor II follows
- E) Both I and II follow

Q82.

Statements:

- No Asset is Liability.
- Only a few Liabilities are Equity.

Conclusions:

- I. Some Equity are not Assets.
- II. All Assets being Equity is a possibility.

- A) Only I follows
- B) Only II follows
- C) Either I or II follows
- D) Neither I nor II follows
- E) Both I and II follow

Directions (Q83–Q87): Seven persons (M, N, O, P, Q, R, S) attend a conference on different days of the same week (Monday to Sunday).

- O attends on Wednesday.
- Two persons attend between O and R.
- P attends immediately before R.
- As many persons attend before P as after Q.
- N attends before M but after S.

Q83. Who attends the conference on Sunday?

- A) R B) Q C) M D) N E) S

Q84. How many persons attend between S and O?

- A) None B) One C) Two D) Three E) Four

Q85. On which day does P attend?

- A) Friday B) Saturday C) Thursday D) Monday E) Tuesday

Q86. Who attends immediately after N?

- A) O B) M C) P D) Q E) R

Q87. Four of five are alike in a pattern. Which one does NOT belong?

- A) S – Monday
- B) N – Tuesday
- C) O – Wednesday
- D) P – Friday
- E) R – Sunday

Directions (Q88–Q90): Direction and distance problem.

Point X is 10 meters west of Point Y. Point Z is 8 meters north of Point Y. Point A is 14 meters east of Point Z. Point B is 8 meters south of Point A. Point C is 4 meters south of Point B.

Q88. What is the shortest distance between Point Y and Point A?

- A) 10 meters
- B) $2\sqrt{53}$ meters
- C) 12 meters
- D) $2\sqrt{65}$ meters
- E) 16 meters

Q89. In which direction is Point C with respect to Point Y?

- A) South-East
- B) North-East
- C) South-West
- D) North-West
- E) Due South

Q90. What is the total distance walked from Point X to Point C along the given path?

- A) 40 meters
- B) 42 meters
- C) 44 meters
- D) 46 meters
- E) 48 meters

Directions (Q91–Q93): Blood Relation problem.

In a three-generation family of seven members (M, N, O, P, Q, R, S):

- M is the father of O and grandfather of S.
- N is married to M.
- P is the brother-in-law of O, who is unmarried.
- Q is the daughter of P and sister of S.
- R is the mother of Q.

Q91. How is N related to Q?

- A) Mother
- B) Grandmother
- C) Aunt
- D) Sister
- E) Daughter

Q92. How is O related to S?

- A) Father
- B) Uncle

- C) Brother
- D) Grandfather
- E) Nephew

Q93. How many male members are in the family?

- A) Two B) Three C) Four D) Five E) Cannot be determined

Directions (Q94–Q98): 10-person parallel row seating.

- 10 persons sit in two parallel rows containing 5 persons each.
- Row 1 (facing South): M, N, O, P, Q.
- Row 2 (facing North): U, V, W, X, Y.
- M sits second to the left of O, who faces U.
- V sits at an extreme end and second to the right of W.
- N faces X, who is not an immediate neighbor of U.
- Q sits to the immediate right of P.

Q94. Who faces Q?

- A) U B) V C) W D) X E) Y

Q95. Who sits at the extreme left end of Row 1 (facing South)?

- A) M B) N C) O D) P E) Q

Q96. What is V's position with respect to Y?

- A) Immediate left
- B) Second to the right
- C) Third to the right
- D) Immediate right
- E) Second to the left

Q97. Who sits opposite to P?

- A) U B) V C) W D) X E) Y

Q98. How many persons sit between M and O in Row 1?

- A) None B) One C) Two D) Three E) Four

Miscellaneous Reasoning (Q99–Q100)

Q99. How many meaningful English 4-letter words can be formed using the 1st, 3rd, 5th, and 7th letters of the word **"TECHNOLOGY"** without repeating letters?
